EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kirk M. Hartung on February 1, 2006.

2. The application has been amended as follows:

In the Claims:

A) Rewrite claim 1 as follows:

-- Claim 1 (Currently Amended) A chin up bar assembly, comprising:

a cross bar;

a pair of collars slidably mounted on the cross bar;

a pair of handles pivotally mounted on the collars;

the handles being held in a selected position substantially at any point along the cross bar ~~solely~~ by application of a portion of a user's weight to the handles.--

B) Cancel claim 2.

C) Rewrite claim 11 as follows:

-- Claim 11 (Currently Amended) A method of setting a pair of chin up handles at a selected position along a cross bar, comprising:

sliding each handle to a selected position along the bar:

pivoting each handle to a locked position such that a user's weight alone precludes sliding of the handles along the cross bar, wherein each handle includes a collar slidably mounted to the cross bar.--

3. The following is an examiner's statement of reasons for allowance: the prior art cited does not disclose a cross bar having a pair of collars slidably mounted to the cross bar with handles pivotally mounted to the collars to selectively lock the collars and handles at substantially any point along the cross bar by a user's engagement with the handles during exercise. Recitation in claim 1 that the handles are positioned in a selected position substantially at any point along the cross bar distinguishes over the prior art wherein the handles are positionable only at discrete locations along the cross bar, such in *Dillard*, *Weeks* and *Mojden*.

Recitation

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
